

# MD Laser cutters for metal cutting

Machine includes controller, laser generator and chiller

## Features:

- Stable steel structure and constant temperature control
- Auto focus
- Easy material handling system
- suitable for 24 hours non stop runs.
- Rack and pinion Drive system& linear guide rail movement
- Servo motors
- High power laser generator based on German technology
- Laser power stability: +/-1%

## Technical Specifications

Specification	MD2613	MD3015
X,Y Working Area	1300 x 2600 mm	1500 x 3000 mm
Table size	1500 x 2800 mm	1680 x 3200 mm
Working air	99.996%Helium, Nitrogen, Co2	
Air assist	Oxygen, Nitrogen or compressed air	
Laser power	1200W, 2000W, 3000W, 4000W	
Max. cutting speed	7 m/min	
Accuracy	±0.05mm	
Drive	Rack and pinion	
Drive Motors	servo Motors	
Working Voltage	AC380V+/-10%, 50/60Hz	
Interface	USB	
Software	FastCAM	
Working Environment	Temperature: 0DegC ~ 45DegC, Relative humidity: 30% ~ 75%
