

PM1410 Laser cutters

Main application: cutting acrylic up to 40mm thick.

Uses stepper motor with double linear rail guide. Reliable and affordable

Technical Specifications

Specification	PM1410- 200W	PM1410- 300W
X,Y Working Area	1380 x 1000 mm	
Type of laser	CO2 DC stimulated glass laser	
Wavelength	10.6um	
Power	200W	300W
Drive Motors	stepper Motors	
Working Voltage	AC220V/50Hz	
Weight	400Kg	
Working Environment	Temperature: 10DegC~ 45DegC, Relative humidity: 30%~75%
